## Sustainable production

All editions of a seat in Siena are made in Denmark and produced from FSC certified cut off wood from large scale Danish productions.

## Product character

Wood is an organic material that evolves over time. Daily use adds to the unique character and patina. Because a seat in Siena is produced from cut off wood, the pieces sometimes come with beauty marks.

Items placed on the piece might leave marks over time when exposed to sunlight.

## Product warranty

We ensure a 2 year warranty after the date of purchase. The warranty does not apply in cases of improper use, wear and tear or lack of maintenance.

## Cleaning & care

The seat is very easy to clean with a damp cloth. Once in a while we recommend that you sand down the frame using 180 grit sanding paper and apply one of our carefully developed oils from our Lasting Love wood care line.

As any other painted product the surface of our glossy tops can be scratched if exposed for heavy use or direct contact with sharp items.
