Product Fact Sheet

# Medi & Mini Collections

At a seat in Siena, we believe that design should be multi functional, beautiful and responsibly produced. Therefore every piece from a seat in Siena is designed to meet the ever changing urban design needs while working towards a more sustainable and circular future. Our frames are home to more than 141 different colour and style combinations, making it easy to hit refresh with a green conscience.

## Sustainable production

All editions of a seat in Siena are made in Denmark and produced from FSC certified cut off wood from large scale Danish productions.

## Product character

Wood is an organic material that evolves over time. Daily use adds to the unique character and patina. Because a seat in Siena is produced from cut off wood, they sometimes come with beauty marks. These can for example be a small knob or a slight difference to be traced in the wood's vein structure.

## Product warranty

We ensure a 2 year warranty after the date of purchase. The warranty does not apply in cases of improper use, wear and tear or lack of maintenance.

## Cleaning & care

The seat is very easy to clean with a damp cloth. Once in a while we recommend that you sand down the frame using 180 grit sanding paper and after apply one of our carefully developed oils from our Wood care line.

As any other painted product the surface of our glossy seats can be scratched if exposed for heavy use or direct contact with sharp items.
